○ Jashwanth-Gowda-R

I am an experienced Flutter software developer with 3 years of industry expertise. I am proficient in building cross-platform applications and delivering user-centric solutions.

Education

Don Bosco Institute Of Technology, VTU   **Bengaluru, India**
Undergraduate, Bachelor of Telecommunication Engineering   *2015 - 2019*

Experience

Full-time Employment

Digital Green   **Bengaluru,India**
Software Engineer I   *Jul.2021 - Nov.2022*

- Developed a mobile application using Flutter that enabled frontline agricultural workers to gather crop harvest data. This application aided Farmer Production Organizations (FPOs) in informed sales planning, analyzing crop trends, managing supply and demand, and linking FPOs with potential buyers.
- Involved in developing a data platform using ReactJS (with a team of 3) for enabling direct data sharing between organizations to prevent unintentional data misuse.
- Designed and developed a web-based visualization dashboard using ReactJS and PowerBI for visualizing the data aggregated from in-house app.

Vrook   **Bengaluru, India**
Software Engineer   *Oct.2019 – Apr.2021*

- Designed and developed custom mobile-responsive themes for OpenEdX LMS.
- Implemented new features for booksbeka.com using OpenCart.
- Designed and developed the company's blogsite using GhostJS.

Internships

Department of Space, Indian Space Research Organisation (ISRO)   **Bengaluru, India**
Bachelor Project   *Feb. 2019 – Apr. 2019*

- Bachelor Project: Design of 1KV DC Rectifier Unit for S-Band pulsed HV transmitted in the field of Doppler Weather Radar.
- Worked with the design team of the Doppler Weather Radar power supply team.

Freelancing

Idu Mishmi Cultural Society (IMCLS)   **Remote**
Flutter Developer   *Apr.2023 – Jul.2023*

- Building a storybook e-reader application for the Idu Mishmi language.

XRI Institute   **Remote**
Data Curator   *Sep.2021 – Nov.2021*

- Worked as a data curator and data annotator for creating a stakeholder network for low-resource languages.

Foodveda   **Remote**
Frontend Developer   *Aug.2020 – Oct.2020*

- Designed and developed an e-commerce web application using OpenCart that serves indigenous recipes and food products across India.

NammaLocal   **Remote**
Frontend Developer   *Jun.2020 – Jul.2020*

- Designed and developed an e-commerce web application using OpenCart that provides a platform for local sellers to showcase their products.

Personal Projects

Mishmi (Idu) Dictionary   **Remote**
Flutter Developer

- Contributed towards developing screens and adding audio features for the flutter-based offline mobile application.

Vernacular Archive of Northeast India - VANI   **Remote**
Frontend Developer

- Involved in designing and developing responsive theme customization for the static website using Jekyll.

Skills

- **Languages, Frameworks And Cloud services:** JavaScript, Dart, Flutter, Riverpod, ReactJS, Bootstrap, OpenCart, Jekyll, Firebase, Appwrite
- **Tools:** Git, Jira
- **Databases:** Firestore, MySQL, Sqlite
- **Infrastructures:** Docker, AWS, Netlify, Vercel

Certifications

○ Flutter Foundations Course - Complete Package by Andrea Bizzotto in Dec, 2022.

○ The Complete Dart Language Guide for Beginners and Beyond by Andrea Bizzotto in June, 2022.
