Hiring Manager
[Company Name]
[Company Address or Remote]

Dear Hiring Manager,

I am writing to express my interest in the [Job Title, e.g., Flutter Developer] position at [Company Name]. With over 4 years of experience in software development — including 3+ years of hands-on expertise in Flutter — I have a strong foundation in building cross-platform mobile and web applications that are scalable, performant, and user-friendly.

In my current role at ProWork.ie, I'm contributing to the development of a new global mobile application using Flutter, Dart, and Firebase. My responsibilities include architecting clean and modular codebases (MVVM), integrating RESTful APIs and Firebase services, automating CI/CD workflows with GitHub Actions, and overseeing the deployment process on both the App Store and Play Store. I also collaborate closely with UI/UX teams to implement responsive, intuitive interfaces aligned with product goals.

Previously at Digital Green, I developed Flutter applications that empowered agricultural workers and co-built React-based platforms for data sharing and visualization. My early career at Vrook gave me strong exposure to OpenCart, GhostJS, and OpenEdX development.

I am confident that my experience working across diverse tech stacks — including Flutter, ReactJS, Firebase — combined with my strong problem-solving skills and collaborative approach, would make me a valuable asset to your team.

I've attached my resume for your review. I would welcome the opportunity to further discuss how I can contribute to your team's success. Thank you for considering my application.

Looking forward to hearing from you.

Sincerely,

Jashwanth Gowda R
